VOL. 27 NO. 12

WASHINGTON, D. C., SATURDAY AUGUST 17, 1907.

LABOR. ADVISES COLORED AMERICANS TO JOIN LA-BOR ORGANIZATIONS.

Kansas, August 9.

At the meeting of the Tri-State Labor Meeting, which has been in session from August 4, and continues until the 10th, Register W. T. Vernon, Senator Foraker, Dr. Booker T. Washington and others spoke. Dr. Vernon, representing the Administration, spoke as fol-

Fellow Citizens:-I feel myself more than honored in coming to you as the representative of that friend of labor, President Theodore Roosevelt, to address you, my countrymen, and if possible to contribute in some measure to the splendid efforts made by the management of your exposition.

the members of my race on purely racial questions, but the presence of these labor organizations impels me to speak in some measure concerning labor and that for which labor stands,

when the gentleman was said to be the man who did not work-when labor was associated with indignity; and society, men have learned to view with pity and all reasonable, fair-minded Americans. more nearly with contempt that one who lives upon the efforts of others. From a material standpoint the ability to labor is Gods' great gift to man. That Providence which decreed that man in the sweat of his face should earn his bread thereby blessed him; for, from this labor of the individual have strength of body, strength of mind, and the ilbunined soul which idleness knoweth got Man's struggles from the Stone Age until now-his discovery in the arts and sciences, his making books, his nventions, his overcoming nature-are all the result of labor. His annihilation of space, his utilization of time, his giving to himself and family the comforts of home, and true happiness, are the rewards of noble effort. Mighty cities, marts of trade, harbors-all the accumulation of civilization and an international oneness of purpose which make this hour the admiration of intelligent manity are the sequence of the command, "In the sweat of thy face shalt

The Negro as a laborer has done his part in this task of world improver ent. He was working in that earlier day when civilization had its birthplace with those who built the Pyramids and made the Sphinx to keep silent vigil on the banks of the Nile. The efforts of his brain and brawn thread the world's great achievements, and have seen their fruition in his part in the development of American civilization. And today that man of the race does most for the race who when he teaches his children to labor and prepares them to labor intelli-

Labor is not toil. Toil is the grinding, servile task, the portion of slaves, and can not be where men are taught to think. Labor implies intelligent effort. The laboring man thinks and works rather than is worked.

The great mass of our countrymen will always be those who work with their hands. The safety of America rests with the intelligent laboring class; for this reason the wisest statesmen, the truest patriots are those who strive for the education, the protection and intelligent co-operation of the laboring class.

There is much cause for congratulaion in the growth and development of labor organizations. With the efforts cite region. for civil, political and religious liberty have grown apace the efforts for industrial betterment. The nobles and rulers in the extreme of human selfishness, ground down to the last extremity the proletariat class, but in the night of their oppression these struggled unceasingly for a better day.

In the days of Constantine there were tions having for their aim the doing workers had no souls.

Through the intervening years the la- of this great strike. civilized world in that mighty struggle, ments of our industrial life may unthe French Revolution, which bade the derstand each better is our hope. world look up and hope for a better day.

troduction of slave labor in Jamestown wages. It is the duty of these organ-

Human slavery and labor unions are not compatible. It was but a question of time that the free labor of the North. seeking to elevate itself to a position REGISTER VERNON TALKS ON of competency, independence and appreciated citizenship, would find the Illium of its woes in the slave oligarchy of the South.

The conscience of the abolitionist, the Christianity of the good men of America who sought to do unto others as they would that men should do unto the utter futility of striving for lasting commercial and industrial greatness while millions of American laborers were but serfs and slaves. We are all thankful today that from these forces are here today not serfs, but happy, intelligent and prosperous laborers.

Unity means strength. Organization your interest, which is but the interest of your country, is evidenced by your I address myself today not alone to organizations. The trades and vocations gro youth; unite in the advocaembraced within labor organizations ex tend to all phases of labor. The earnday. As you labor effectively and intelligently can you demand and hope Time was in the history of the world to receive proper remuneration from your labor. Increased remuneration with economy means the acquisition of homes, the possession of land, bank acmisguided, had no word of praise for counts, education for your children, and the honest laboring man. Be it said comfort in old age, so that rather than to the credit of a sane age that the dig- being a public charge you become a nity of labor is acknowledged and that worthy, respected citizen, appreciated by

> I would not have my views impress you that labor can live alone, or that the power of capital should be underestimated or ignored. I believe that a cultivation of the most friendly relations and a mutual understanding between labor and capital will inure to the benefit of both. In this day of compromises, arbitration and reason, the wise, conservative labor leader can accomplish intold good.

> All thoughtful men agree that lockouts on the part of the management of great concern, or strikes on the part of labor unions, can but result in real njury to both classes.

> Statistics show that from 1741 to 1880 there were 1,491 strikes and lockouts and that of these 1,089 related to wages only-that of the whole number 316 succeeded, 154 were compromised, 583 failed entirely, leaving the results of 438 which can not be ascertained.

In 1880 there were 610 strikes. in 1900 there were 1,799. The establishments concerned in these unfortuing that period 6,105,694 employees were thrown out of employment. During the same period of twenty-one years there were 1,005 lockouts, involving nearly ten thousand establishments and throwing out of employment nearly a million people. Perhaps the greatest strike of recent years was the great strike of plished, the years that unfold will see 1902, when the United Mine Workers the dawning of a brighter day, when of America demanded an increase in wages and a decrease in time, and the payment for coal by weight wherever the maximum of our experience and practicable, instead of by carload, and at the same time hoping to secure recognition of their union. After ineffectual attempts to secure these terms, 147,000 abandoned their employment and remained idle until the appointment of the Anthracite Coal Commission. The strike lasted from May 12 to October

The shipment of coal decreased twenty-two and one-third millions of tonsforty per cent. of the shiment of the preceding year, or over \$46,000,000, while the mine workers lost in wages \$25,-000,000, and \$1,800,000 was expended by the mine workers of the country for the relief of the miners of the anthra-

The railroad companies suffered a de crease in freight rates on larger sizes had it been sent to New York harbor of \$19,000,000, and on smaller sizes of \$28,000,000. This is the material part of the economic side. The story of the intimidations, violence, boycotts, and all war can not be told. It was at this there she will spend part of her time no less than thirty-five labor organiza- point that the President of the United States, Theodore Roosevelt, came for- BALTIMCRE & OHIO RAILROAD. Alabama, August 6 to 10, 1906, there away with the contempt and taint of ward and conferred a blessing upon labor which came from the belief that the mine owner, the miner and the only \$10 round trip; August 2 and 16; gang of politicians who styled themwhole American people by a settlement

It is the earnest wish of all that we better condition, and the cumulative may never again see a recurrence of Train leaving Washington at 7.45 a.m., created a campaign fund, after deciding force of their struggle was seen by the such an event, and that all the ele- arriving Niagara Falls at 11.00 p.m.

ourselves worthy of these rights. We has been rent asunder For nearly one are a part of the national life of a great people. Let us more and more become an indispensable part. This accom- to pieces by a set of officeseekers,, job those conditions which now distress and annoy shall see the minimum, and conditions shall be satisfactory to ourselves and friends, and the so-called vexatious race problem will be at an end.

TEACHERS HARRASSED.

The Board of Eduucation, it is believed, will adopt strictly business methods during its existence and place all the schools upon a strictly practical, business basis. The Board's attention is called to the harrassing methods of persons who have been delegated a little authority and seem to exercise that authority upon helpless and inoffensive teachers. It is a common thing for Negro supervisors to harrass teachers. It is hoped that Assistant Superintendent Bruce will see to it that the supervisors under him do their duty and respect their teachers.

The next Congress will be asked to abolish the offices of supervisors. They are expensive and unnecessary.
